

01/17/13

Hi Jeanne,

I just wanted to let you know that Silverbell had her spay appointment today and everything went well. She'll stay at the vet overnight and we'll pick her up tomorrow. Is there anything I need to get from the vet for you as proof of her alteration? I vaguely remember something about that in the contract.

I attached one picture that I have here at work of her relaxing on my/her favorite blanket. She is just a wonderful addition to our family and has captured everybody's heart, including our Jack who has adjusted and learned that there is more love to go around with another cat in the house. I have some cute pics of them together at home and will try to e-mail them so you can see.

Robin
