

Letters from Friends

Hi Jeanne,

I just wanted to let you know that Max and Mischa are doing very well. They are really showing their personalities and they are so fun to be around. Their colors are amazing. They are absolutely beautiful.

Max is the louder of the two. He is extremely affectionate and loves to eat. He starts purring when he sees us or food. He is now the bigger of the two. Mischa is quiet and reserved although she likes to have alone time with me when Max is sleeping in the afternoon. She loves paper and has chewed several toilet paper and paper towel rolls (she is very quick!). She is able to amuse herself with a piece of crumpled paper for hours.

I have attached pictures for you. If you have difficulty seeing them, please let me know and I will resend them.

Thanks for everything,

Wendy
