

Hi Rob & Jeanne !

I wanted to send a few pics of Jynx and a copy of his neutering paperwork from our vet. I can't tell you or explain how much we love this little (actually he's a big boy) monster. At the time of his neutering he was just over 10 lbs, he's more than that now. Loves to ride around on our shoulders, loves hair and peoples heads like his momma, but not as nicely, he's a brute. We set up a 10x10 chain link outside kennel (play pen), including his own fountain, built in shelves, tree branches, a small dog house for his litter box, way too many toys. He walks pretty well with a harness and leash, comes when called and we love him dearly.

Well that's all for now, thanks again for the beautiful bengal kitten

Patti & Ken Horn
