

Letters From Friends

12/01/2009:

I was thinking of you the other day. Moz is almost a year old, and perfect in every way. This summer we found and adopted a 5 week old kitten and Moz was like her mother- cleaning her, not eating her food, never away from her. He follows me around, talks to me all day, and brings me presents of all kinds of little things he finds around the house. He'll even come running to me to tattle if Robbie scolds him about something.

My vet's office is always so impressed with how sweet he is that they've asked me for your information - they always say they've never met a bengal so patient and gentle.

Thanks again,
Maggie
