

I am very pleased with the kitten we bought from you. He is just amazing! His markings are perfect and what a personality he has. He is attached to my side whenever I am home. He plays endlessly with feathers and is such a cuddle baby. He is growing so fast and testing his limits every chance he can. All I can say is thank you for such a wonderful Bengal. He is our first and probably not our last Bengal- seeing how wonderful he is. We have decided as a family to name him Captain. Working with you and your husband was very pleasant and you both were so helpful. I appreciate the time you put into your cats because it shows! At my every request you sent more pictures of him- Thanks!

Really, this has been a great and smooth experience. Thank you!  
I plan to take more photos this weekend and I will send them out.
